Designed to easily carry sensitive devices and other products

The unique static-dissipative PPK-640 and PPK-645 Field Service Mats are designed to easily transport equipment and material. This fabric, featuring a unique multi-layer construction, is flexible, non-tacky and color stable. Using this Field Service Mat allows the engineer to fold and set up a workstation anywhere in the plant.

Only available in blue, the PPK-640 and PPK-645 Field Service Mats are highly resistant to tearing. The buried conductive layer is the primary path to ground within the structure. Its construction provides the same resistance-to-ground measurements from any point on the material. It also includes a handy storage pouch for miscellaneous accessories.

The PPK-645 includes a 9 ½ x 7 inch storage pocket with Velcro sealable closure.
